Question 23 (a)

Criteria	Marks
• Identifies field sizes and data types for SenderPhone and MessageRead with justifications for the data types	3
• Provides some of the information required	2
• Provides some relevant information	1

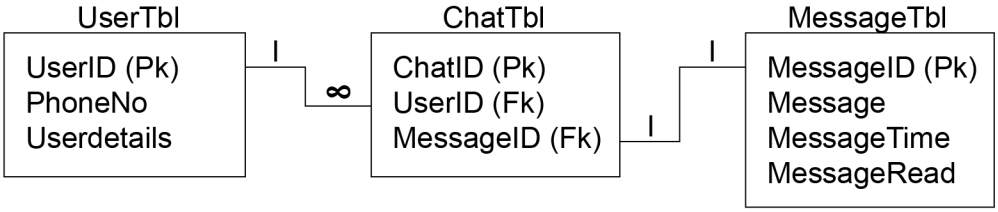

Sample answer:

Field	*Field size*	*Data Type*	*Justification for choosing the data type*
SenderPhone	**12**	**Text**	**The data stored includes a leading '0' and spaces**
MessageRead	**1**	**Boolean**	**The tick would represent a true or false for the message having been read or not**

Question 23 (b)

Criteria	Marks
• Draws a schematic diagram that shows a sound understanding of how the database can be normalised • Includes labels, primary keys, foreign keys and relationships	3
• Draws a schematic diagram that shows some understanding of the organisation of the data • Includes some relevant fields	2
• Provides some relevant information	1

Sample answer:

Or a two-table alternative
